Team Assignment 1 Checkpoint 3

The test cases supplied for us by group 3-5 did not compile properly, so we corrected them as needed. The following were our results:

1   databaseTest1

All test cases passed.
Xiaoyu made the following edits:

- Line 20: supply table name

- Line 24: create a third table

- Line 44: require column size of 2

- Line 57: create a record in order to insert

- Line 68: use correct query syntax

- Line 76 require column size of 1

- Line 89,93,94: add table and check new size

2   databaseTest2

All test cases passed.
Xiaoyu made the following edits:

- Line 20: supply table name

- Line 26 - 31: create records before inserting

- Line 41: use correct query syntax

3   databaseTest3

All test cases passed.
Xiaoyu made the following edits:

- Line 20 - 22: supply column names

- Line 36 - 47: create records, then insert

- Line 69: correct table name

- Line 74 - 76: correct query syntax

4   RecordTest

All test cases passed.
Xiaoyu made the following edits:

- Line 22: correct vector contents

5   RecordTest2

All test cases passed.

6   TableTest

All test cases passed.
Xiaoyu made the following edits:

- Line 20 - 23: populate vector

- Line 45 - 48: populate vector

- Line 82: require column size of 0

- Line 107: valid table constructor

- Line 126: valid table constructor

- Line 162: valid table constructor

- Line 209 - 212: populate vector

- Line 222: valid table constructor

- Line 265 - 268: populate vector

- Line 289: valid table constructor

- Line 364: valid attribute constructor

- Line 369 - 373: add columns

- Line 419: correct min GPA
